

ILM LEVEL 7 DIPLOMA IN STRATEGIC LEADERSHIP AND EXECUTIVE MANAGEMENT

ILM/L7QSEML/0809

Introducing the qualification

The ILM Level 7 Diploma in Strategic Leadership and Executive Management has been specially designed to give practising managers the widest choice for their formal development in this role.

This qualification builds on the ILM Level 7 Awards and Certificates in Strategic Leadership or Executive Management, and is more suited to the practising senior manager or leader, due to the more challenging demands of the programme. Participants are not required to undertake either the Award or the Certificate as pre-requisites and may join Diploma programmes directly.

The qualification develops a comprehensive range of strategic leadership and senior management skills, assisting participants in gaining the knowledge required at this level. By completing the six mandatory units, participants can expect to develop skills such as: informed decision making, analysis of personal management practice, critical thinking and research, and the development of autonomy and self-direction in learning.

Participants are then able to choose from a diverse range of optional units to build their qualification (see the tables below and overleaf). This high level of flexibility allows individuals or their employers to custom build a qualification focusing on the key areas that are most relevant to the demands of a specific role, industry or organisation. From leading programmes to managing corporate risk, the ILM Level 7 Diploma in Strategic Leadership and Executive Management can be fully tailored to meet the varying needs of participants across all employment sectors.

Qualification overview
