## The ILM Recognised measures of quality:

ILM Recognised has been designed for organisations with experience in delivering high quality training within the ILM footprint, allowing them to increase their credibility by aligning their training programme/s with ILM's measures of quality.

# CELEBRATE success with digital credentials

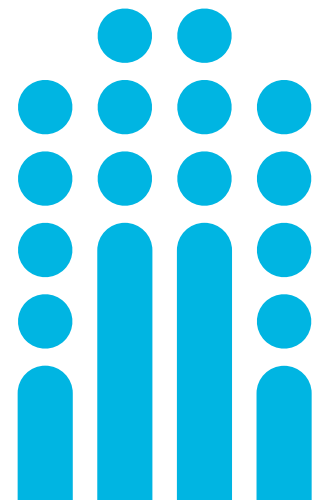

## All learners will receive a tailored digital credential when they successfully complete your programme.

Digital credentials are a data-rich representation of someone's knowledge, skills or behaviours.

Unlike a paper certificate, digital credentials are easily shareable, verifiable and trackable all in one click. This allows your participants to share their achievements electronically and online via LinkedIn and other social platforms. We manage the end-to-end process making sure the issuing of digital credentials is seamless for you. We also provide annual reports on how your credentials have been accessed and shared, demonstrating your brand's impact.

ILM printed certificates are also available with the option to add customer's logos and text to make them even more bespoke.

Tailor your credential with your organisation logo.
